

Nobody but You

Kimbra

Don't wanna be a broken record
Don't wanna see the same refrain
That I can't stop, I can't stop feel it again
I don't wanna fight the feeling
But it keeps fighting me
I can't stop, I can't stop of love is frightening
I know I got you going in circles
And you've been running through my mind
I think I've finally found the nerve this time
To say, baby I want nobody but you
Ain't nobody who can take all my doubts
And turn 'em upside down
Now
Baby, not gon' get me confused
I'll come running with my heart open wide
I'm gonna give it all to you this time And maybe I'm a little hasty
A little bit ahead of myself
But I can't stop, I can't stop
I need your help
My mind is like a roller-coaster
And baby you should ride with me
No I can't stop, I can't stop, so exciting
I know I had you goin' in circles
I'd be swinging you from side to side
I think I've finally found the nerve this time
To say, baby Don't want nobody but you
Ain't nobody who can take all the doubts
And turn 'em upside down
Now
Baby, not gon' get you confused
I'll come running with my heart open wide,
I'm gonna give it all to you this time Listen, I stumble and I fall
I get so emotional
The voices in my head
They made me scared
But I need some time
Just to make up my mind
But now your voice is clear to me
It's singing in my ears Baby, Don't want nobody but you

Cause there ain't nobody who can take the my doubts
And turn 'em upside down
Baby, not gon' get you confused
I'll come running with my heart open wide,
I'm gonna give it all to you this time I want nobody but you
Ain't nobody who can take all my doubts
And turn 'em upside down
Baby, not gon' get me confused
I'll come running with my heart open wide,
I'm gonna give it all to you this time I'm gonna give it all to you baby Baby, I want nobody but you
Ain't nobody but you
Upside down, baby
I want nobody but you
'Cause it ain't nobody but you
Baby, I want nobody but you
Upside down, baby
I want nobody but you
