

# Void

## Arythma

Feeling like a fool again  
Cause I dont know you anymore  
I'm tired of trying to understand  
I've been down that road before

Casting stones into the void  
Bases of my life destroyed  
The happiness that I once enjoyed  
Thanks to banes I cant avoid

I know it shouldn't matter  
If everything I have falls away  
But it should not be the one I love  
Ripping my heart out everyday

Casting stones into the void  
Bases of my life destroyed  
The happiness that I once enjoyed  
Thanks to things I cant avoid

Damn my eyes for wanting you  
Damn my lips for tasting you  
Damn my heart my for loving you

Damn my  
Damn my

Damn my soul for needing you  
Needing you  
Needing you  
Needing you  
Needing you~

Needing you....

Into the Void...

Casting stones into the void  
Bases of my life destroyed  
The happiness that I once enjoyed

Thanks to banes I cant avoid
