

A Man Like Me

Styx

Written by James Young

Lead vocals by James Young
height days a week with my baby at home
and you know that she's my tender honeybaby I've been good
but you know it's rough
when you're spending all of my money ain't no disputin' I'm your man
you know I want to tell the world you're the only woman
show me what love can be
you're the only woman
that understands a man like me rock and roll is a way of life
but don't you know it brings me down
music is my game but when I'm home
I treat a lady like she's wearing a crown stranded in the storm 'round Lakewood Way
you know who comes to mind she's the only woman
show me what love can be
she's the only woman
that understands a man like me [guitar solo] when I'm away with time to kill
just sittin' around gettin' high
thinking about your sweet sweet love
I want to jump on a plane and fly sweet little susie
show me what love can be
she's the only woman
that understands a man
she understands a man
(like me) she's the only woman
she's the only woman
she's the only woman
