Over the Rainbow

Freedom Call

Sounds of revolution calling everywhere
It's time to leave the past behind
Roaming through the shadows, crossing seven seas
Deep inside the inner flame's aliveRunning on an odyssey, far away
Hiding from our shame to the gate of no return
Running faster, running high
A million miles away, we believe in destinyNever stop for anything, never walk alone
Sleepwalking on endless seas, misery and thorns
Star rise and lead me home
Powerful kingdom of happinessChallenging the fortune, a fascination rise
Deep inside with clarity in mind
Creeping through the emptiness
Dangerous, try to hold us back
And break the stairway downNever stop for anything, never walk alone
In our dreams and fantasies, bound to be reborn
Star rise and lead me home
Powerful kingdom of happinessOver the rainbow we're touching the sky
Ride into distance we'll find our way
Over the rainbow we fly to survive
Glide on illusions of better daysDemon shadows, master of sorrow
Try to catch our soul
Salvation's on the wayNever stop for anything, never walk alone
Keep our faith in prophecy, power of the crown
Star rise and lead me home
Powerful kingdom of happinessOver the rainbow we're touching the sky
Ride into distance we'll find our way
Over the rainbow we fly to survive
Glide on illusions of better daysOver the rainbow we're touching the sky
Ride into distance we'll find our way
Over the rainbow we fly to survive
Glide on illusions of better daysOver the rainbow we're touching the sky
Ride into distance we'll find our way
Over the rainbow we fly to survive
Glide on illusions of better days
Over the rainbow we're touching the sky
