When The Sun

Tahiti 80

When the sun appears in the sky
When the moon slips away with the dark
You've been awake of a long time
Yes, it's true
You're not sleeping like so many others doNighttime isn't the shelter
It's supposed to beEspecially when you're sad
You ride the mares at night
Even if you don't want to
Even if you don't want toNighttime, nighttime
