

# White gold

## Ten Sharp

Back from the window  
Everything's subtle  
Temporary sanctuary  
Look through the window  
Everything's subtle  
Tailored to fit, but nothing's that simple  
Gold, you will always come to me  
With the power of deception  
Gold won't ever comfort me  
The color of deception  
The color of deception

Move closer  
Subterfuge  
Illusion's there for all to see  
There's no one left to rescue me  
Glass and stone, it cuts like a knife  
And gold won't ever comfort me  
Gold, you will always come to me  
With the power of deception  
Gold won't ever comfort me  
The color of deception  
The color of deception
