

Sing for Me (Acoustic) [Bonus Track]

Yellowcard

Look at me
And listen close
So I can tell you how I feel before I go
Just a year
It's not much time
For me to show you I am proud that you are mine I wish I had known
The future in my heart
Was just about to start Say tomorrow
I can follow you there
Just close your eyes
And sing for me
I will hear you
Always near you
And I'll give you the words
Just sing for me Every lock
On every door
I put them there to try and hide you from the world
And you kicked
Yeah you screamed
You never understood you're everything to me I just hope you know
The future in your heart
Is just about to start Say tomorrow
I can follow you there
Just close your eyes
And sing for me
I will hear you
Always near you
And I'll give you the words
Just sing for me No looking back when I am gone
(Sing for me)
Following your heart its never wrong
(Sing for me)
No looking back when I am gone
(Sing for me)
Don't second guess the note you're on Out of time
All out of fight
You are the only thing in life that I got right Say tomorrow
I can follow you there
Just close your eyes

And sing for me
I will hear you
Always hear you
And I'll give you the words
Just sing for me Just close your eyes
And sing for me
Just close your eyes
And sing for me
