

Heroes Live Forever

[Vanessa Amorosi](#)

You are the knight that shines in everyone
The truth is there for all to see
You are the voice that speaks to everyone
You are the heroes we all like to be
You never dreams that life will face us all
With a passion that cannot be denied
You bring the whole world together as one
And we'll always be by your side And all the world will join our celebration
And all the world will share the joy you bring
And all the power, the hope and inspiration
In all that glory that nations all will see Heroes live forever
Heroes live forever
Always we'll remember
Heroes live forever (Since the dawn of history) Since the dawn history
(Searching for a destiny) And searching for a destiny
(Be there that we can be) Be there that we can be
Heroes
