Hospital Bed

Seabear

We spread our blankets over the lake
I [Incomprehensible]
I tried to leave but he held my arms
And head in the lakeSo I grab on hold to the spider's neck
And ride out of town
Cause I'm sick and the days are long
I tried and I triedTo squeeze the blue out of the sky
The yellow out of the sunIn that big invisible moment
The kid on my shoulders
With the time we'll make it into sand
Agreed, he took in your handLike a rabbit in a human skin coat
He'll dance on the yard
Like a wolf flipping goodbye notes
You'll howl at the skySo show your cat teeth to the light
And grab into his main vein
