

Love In Return

[Sarina Paris](#)

If you wanna get
If you wanna get
If you wanna get If you wanna get to know me
Then you gotta show me
Can you be there for me Are you strong enough?
Can you be my friend till the very end?
When I give you love
Will you give me love in return? When you're close to me, I can't help it
I'm staring right through you
Wondering why you don't notice
I'd do anything my friends say
You know my name, it's just not the same When you're close to me, I can't help it
I'm staring right through you
Wondering why you don't notice
I'd do anything my friends say
You know my name, it's just not the same You keep playing the shy guy around me
Pretending you're too cool
Tell me you're free, there's no body
You want more than me My friends say you know my name
It's just not the same
My friends say you know my name
It's just not the same
