Apple Pie

Goon Moon

Hear the sparrow sing the song
See the clouds the setting sun
Feel the breeze blow through your hair
Dream of me and I'll be there
Count the sheep up above your head
The end is near we are the dead
Smell the lily's drink the wine
Drape the bodies with the lime
Bake the children in the pies
Sip the tea watch your demise
Tip your hat dont be ashamed
We're all afraid (same time) We're all friends
Read the broken book backwards
Greet the breders with false words
Taste the sulfur on your tongue
Wheap the willow, pierce the lung
Spread the jelly, break the bread
Stitch the evil, mark with red
Stare the bulldog in the eye
Listen to the mothers lie
Bake the children in the pies
Sip the tea watch your demise
Tip your hat dont be ashamed
We're all afraid (same) We're all friends
(2:15)
Scratch the pedals, pull the cord
Search the meadow for the lord
Throw the brothers in a pile
Rest the wicked for a while
Fish the fawl and dunk the lead
Plant the roses in her head
Slice the pegan, kill the rich
Toss the sisters in the ditch
Bake the children in the pies
Sip the tea watch your demise
Tip your hat dont be ashamed
We're all afraid (same time) We're all friends

Be Yourself, be nice, be nice

Be Yourself, be nice

-
Be Yourself, be nice, be nice
Be Yourself, be nice
