

Big City Dreams

Nostalgia

You say we're both little people and you like it that way
But in time I'm gonna put this body to shame (grow old)

 Wear a suit like my old man

Pack up all my things and get my ass outta townWe've got it good

 Whether you like this town or not

I know it's small but with a big head

 it's bound to get hot

 In the summer

 But the summer is a bummer

 If you can't leave

This pathetic excuse for a townThat holds all your memories

 A lifetime of crushes and your broken dreams

 To be anywhere but here

 But baby anywhere is away from meAnd ooh, hoo

 If you got it all figured out

 Then what is there to shout about

 This midwest town is gonna miss you

 Ooooooh

 Just go ahead and work it out

 But first come on and let it out

Scream it shout tell everybody that you're gonna leaveIn about one year you'll have it all figured out

 These big city dreams are what you're about

 Walking like strangers among these states

Only time will tell how long I can waitWe've got it good

 Whether you like this town or not

 I know it's small but with a big head

 it's bound to get hot

 In the summer

 But the summer is a bummer

 If you can't leave

This pathetic excuse for a townThat holds all your memories

 A lifetime of crushes and your broken dreams

 To be anywhere but here

 But baby anywhere is away from meAnd ooh, hoo

 If you got it all figured out

 Then what is there to shout about

 This midwest town is gonna miss you

 Ooooooh

 Just go ahead and work it out

But first come on and let it out
Scream it shout tell everybody that your gonna leaveMe again oh so casually
Did you take the hit for me or the home teamIf you got it all figured out
Then what is there to shout about
This midwest town is gonna miss you
