Next To Nothing

Blue Druids

Beneath this wave
I just can't take your breath awayYou cut me down
You know I'll always be around
So now I wait
I know you'll live another day
Come and take my breath away
Look me straight in the face'Cause you know it's over
Growin' colder
I need somethin'
Leave me next to nothin'
All we ever wanted
I need somethin'
Leave me next to nothin'
Next to nothin'I cut you down
I know you'll always be around
So now you'll wait
I know you'll live another day
Come and take my breath away
Look me straight in the face'Cause you know it's over
Growin' colder
I need somethin'
Leave me next to nothin'
All we ever wanted
I need somethin'
Leave me next to nothin'
Next to nothin'
Next to nothin'
Next to nothin'
Next to nothin'
Next to nothin''Cause you know it's over
Growin' colder
I need somethin'
Leave me next to nothin'
All we ever wanted
I need somethin'
Leave me next to nothin'
Next to nothin'
