Slava Satan

Dark Funeral

in the name, of he who reigns in the kingdom of fire and ice
arise ye creature of satan-lord
ascend your storms across this world,
and answer to our summoning
oh, satan-lord
I am a creature of thy creation, spawn of thy flame,
inflame of thy mind carrier of the alteration
let lightning storms hail the approach of thy arrival
oh, mighty satan-lordevil lord of the darkest flame
arise from your grave
oh, immortal god
slava satan!!!fly out over holy dominion
over their teeming lands
throughout the darkened night-sky
carried by your blizzard storm.
bring with you their worlds destruction
that abide within the abyss
all-conquering flying demon
your are under my dominationevil lord of the darkest flame
arise from your grave
oh, immortal god
hail satan!!!
