

One In A Million

Pet Shop Boys

Ooh ooh ooh
Ooh ooh ooh Why this uncertainty
It's not clear to me?
Would you rather be independent? Have I lost your love?
Have you had enough?
Do you feel too much resentment? How can I make you see
When you disagree
That you just can't leave? One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me I won't stand in your way
I can make you stay
Though, of course, I feel rejected You're a part of me
You're the family
I can't bear to leave One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me Feel free to leave
If you think you're trapped but
Please believe, I'll always want you back One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me Ooh ooh ooh
Ooh ooh ooh One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me One in a million men
Could change the way you feel
One in a million men
Baby, it's up to me
