Do It Or Die

Die Mannequin

Lets burn this town until we all fall down
My crime was crowned, the king of endless sound
Slaughtered inside, the daughter you cant hide
Pray for your life, before you pray for mineWhen she takes a bite out
It always takes it right out of her
And when she takes a bite out
It only takes the fight out of herDo it or die
Do it or die
Must be something in mind
Do it, do it or dieCurses will fall, the dirty of it all
And why should I care, if you were never, never there
Keep this in mind, there is no end in sight
Why am I always careful, always care, andWhen she takes a bite out
It always takes it right out of her
And when she takes a bite out
It only takes the fight out of herDo it or die
Do it or die
Must be something in mind
Do it it do it or dieMust be something on my end
Do it do it or dying
Must be something in mind
Do it do it or dieMy curse and my best friend
Sometimes it weakens the end
My curse and my best friend
Sometimes it weakens the endMy curse and my best friend
Sometimes it weakens the end
My curse and my best friend
Sometimes it weakens the endMust be something in mind
(Its not like you ever knew)
(Its not like youve ever known)Must be something in mind
(It is not like you have ever known)
(It is not like you have ever known)Do it or die
Do it or die
Must be something in mind
Do it do it or dieMust be something in my head
Do it do it or dying
Must be something in mine
Do it do it or die
