

"Deer" Friend

The Phoenix Within

“Deer” Friend

By: Omar Feliciano

Verse 1:

Have you got nothing left to say?
Run along & play dear friend
Let's take a look at what's at stake
Forget all your mistakes dear friend

Pre-chorus:

This world is darker than it seems
But stay relentless with your dreams
Those dreams will show you where to go
You'll show them all

Chorus:

So if you want to, go ahead & take it to the streets
Don't let it go, don't let it go
& When you find it we're going to bring them on their feet
Don't let it go, don't let it go, don't let it go

Verse 2:

Do you remember all those drives?
The weekends & the plans dear friend
Your right this music scenes a joke
It's all in who you know, dear friend

Bridge:

We are our own worst critics we write all day but come the end we hide our sound away
We set our own limits; we block our path with fear & doubt & hide our sound away
This is where we draw the line my friend
