Outside your window, a heart is beatin'™  
A crack of light shines in, and a heart is bleedin'™  
It doesn't light very good, it doesn't shine too long  
It makes me want to ask you, what's been going on  
And I say

Outside my window, is an evergreen  
Outside my window, was where we couldn't be seen  
Outside our hearts, we were king and queen  
Outside my window, you said you'd never be  
Away from me  
Away from me

It's just the same old story, it couldn't carry on  
All the pomp and the glory, was just a bit of fun  
I think about you a lot, I think of what you said  
I can still hear you whisper, these words are kickin'™ round my head  
And I say

Outside my window, is an evergreen  
Outside my window, was where we couldn't be seen  
Outside our hearts, we were king and queen  
Outside my window, you said you'd never be  
Away from me, me, me  
From me yeah

(Instrumental)

Outside, outside, outside, outside, outside, outside  
Outside, outside my window, outside my window

Outside my window, is an evergreen  
Outside my window, was where we couldn't be seen  
Outside our hearts, we were king and queen  
Outside my window, you said you'd never be

Away from me, away from me, away from me  
Away from me, away from me
