# Electric Phase

## Ufo

On the wires I can hear you comin'
With a rush and a strummin'
This electric phase
Ain't no teenage crazeIn your house a phone is ringin'
Just a hot touch that keeps lingerin'
You said loving's easy
Only if you pleaseAll I need is communication
Not a line on your reputation
I don't want a handshake
There ain't no big mistakeThere's no illusion
In this wild confusion
Who knows I'm crazy
No chance of maybeI'd like to know you better
But I'm goin' down so fast
Help me now to feel it
I just can't conceal itBig time I've got to show you
How it's really got to be
Just let me be alone
Left with your dialing toneThere's no illusion
In this wild confusion
Who knows I'm crazy
No chance of maybeOn the wires I can hear you comin'
With a rush and a strummin'
This electric phase
Ain't no teenage crazeIn your house a phone is ringin'
Just a hot touch that keeps lingerin'
You said loving's easy
Only if you please
