

I'm With You

12 Stones

Close your my lonely friend
I sympathize but look deep within
 Think of your where it begins
 It's not the end
 It's not the endTake a step and don't look down
 You can turn it all around
 Would it change things if you knew
 I'm with you
I'm with youI know it hurts, you're broken inside
 But no kind of pain's worth more than a life
 Take the first step and breathe in again
 It's not the end
 It's not the endTake a step and don't look down
 You can turn it all around
 Would it change things if you knew
 I'm with you
I'm with youTake a step and don't look down
 You can turn it all around
 Would it change things if you knew
 I'm with you
I'm with youTake a step and don't look down
 You can turn it all around
 Would it change things if you knew
 I'm with you
 I'm with youI'm with you
 Would it change things if you knew
 I'm with you
