Leech Eclipse

Lock Up

Death in the air, land, in the sea
Stockpiles of waste carving holes in the sky
Conspiring a myth that for now all is well
Meanwhile all set for a sleigh ride to hellLeech eclipse
Earth's bloodstained kiss
EclipseMillions of self righteous wimps point the blame
It's our generation that ought to feel shame
Neglecting the fact that the damage is done
We've been here before and we will be againLeech eclipse
Earth's bloodstained kiss
Eclipse
