

# Horse

## Jimike

I'll make you love me till my end of time  
Make my soul unwind making me a home  
    Holding me slowly  
But I'll still be watching your every move  
    You know that I'll be holding on  
    Until you get off your horse  
    Make me a home, make me a home  
    While seeds are growing your dome

    And it could have been any other  
    See a child only needs a mother  
    I don't need another bother  
    You know that ill be holding on  
    Until you get off your horse  
    Bring me back to the day of nothing  
    Bring me back to where I came from
