MichaelI gotta tell you, I've got opportunities
I got that feeling that everything will be alright
I've got something to offer, do you follow me
I've got the sunshine so come outside and you will seeI talk in Italian and I drive a mini car all the time
I wear my glasses and my ass is always on the line
I'm getting a spear thrown at me every which way, which way I go
And I got the ladies falling at my feet that cant be badThis time in the morning
I know you got me yawning for you
Michael Caine
This time, baby, I know, I think I maybe like you
Michael CaineThere's Mona Lisa, she's always got a lot to say
She's such a teaser, I'll get her on another day
She sells something and no one seems to know that
She'll make her money by lying naked on her backShe's in a raincoat under a candy colored neon light
She's got my lipstick on and black eyeliner in her eyes
I got her attention now, she wants me to be her teacher
She's got me hooked and now I'm educating RitaThis time in the morning
I know you got me yawning for you
Michael Caine
This time, baby, I know, I think I maybe like you
