

# obscure alliance (extended intro)

## Scar Symmetry

I am the conscious soul  
Supreme awareness  
The serpent rising, following the spine Nothing has really changed  
No nothing's really new  
Everything is still the same  
But I see in different ways Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharmd it stares into the sun  
With death as guiding star  
I am transcendence  
Within the rising I see the fall Nothing has really changed  
No nothing's really new  
Everything is still the same  
But I see in different ways Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharmd it stares into the sun (Solo) The empire within swirls and changes  
Never stagnant, ever morphing  
Aligned with the unseen  
Flesh and spirit  
Obscure alliance pass unseen  
Soul in zenith  
Unharmd it stares into the sun  
Worlds in hiding  
Obscure alliance of the planes  
Still abiding  
Unbound in every phase
