

# Night Time Is the Right Time

## Big Bill Broonzy

I'm gonna tell you baby something I want you to do  
Don't stay out all night baby, and I want your little heart to be true  
    Yeah because night time is the right time  
        To be with the one you love  
With the one you loveNow don't forget baby, I love you with all my might  
If you get home before midnight baby, I declare everything will be all right  
    Yeah because night time is the right time  
        To be in the bed with the one you love  
With the one you loveI ain't gonna beat you baby, I declare I ain't gonna dog you around  
Gal I'm just gonna warn you baby before the news gets all over town  
    Gal that night time is the right time  
        To be in the bed with the one you love  
With the one you lovePlay it mister man! Night time is the right time!  
    Listen to me baby, I mean with your whole heart and mind  
I just want to hold you baby in my arms and hold you for a long long time  
    Yeah because night time is the right time  
        Baby to be with the one you love  
        Oh with the one you love
