Your Mouth Into Mine

Black Francis

All my days
I've been listenin' to you play
I've spent all my days drivin'
All my nights tryin'You are so big
But that don't make me so small
You rule the world
But now I'm standin' tallI'm takin' your mouth into mine
I'll take it in now, I'll take it in now, now, now, now
I've been waitin' all my days for you now
Been waitin' all myGot into your parts
And I made you squeal
And I got into your heart
It was no big dealAnd I'm takin' your mouth into mine
I'll take it in now, I'll take it in now, now, now, now
I've been waitin' all my days to get on that
Been waitin' all myI'm takin' your mouth into mine
Suck it in now, suck it in now, now
I've been waitin' all my days to get on that
Waitin' all myI'm takin' your mouth
Got into your parts
And I got into your charts
And I'm takin' your mouthI'm takin' your mouth
I'm takin' your mouth
I'm takin' your mouth
I'm takin' your mouth
I'm takin' your mouth
