

Molested/ Digested

Cattle Decapitation

Brutal rape of nature
Forced into submission and slaughtered
The defilement of life
Farmer-bullshit-biophile!
Molested-digested
Cycle of life infested
No industry is free from protection
Nothing living fully protected
Infect, fester
Dead one day, bio-molestor
Obscene devourments
Abhorent defiled molestor
Breeding cycle of malformed contagion
Ghastly displays of mutilation
Fusing masses, corpses mounting
Molested, digested
Humanity led to this
Molested and digested
Dead one day...bio-molestor
...dead one day...
...molested, digested...
