

Future Games

Bob Welch

I did a thing last night you know those future games

I turned off all the lights oh, the future came

You were by my side will you explain, oh yeah

Real rhyme or reason for those future gamesNow you were there last night and oh were you afraid

Of things we'd come upon while playing future games

But baby it's alright and so have faith

Oh yeah, you invent the future that you want to faceHow many people sit home at night

Wondering if they will be here tonight

Wondering if children will he bring to the lightInherit the world, or inherit the night

Wondering if neighbors are thinking the same

All of the wild things tomorrow will tame

Talking of journeys that happen in vainWell, I know I'm not the only one

To ever spend my life sitting playing future gamesYou better take your time, you know there's no escape

The future sends a sign of things we will create

Baby it's alright and so have faith

Oh yeah, you invent the future that you want to faceHow many people sit home at night

Wondering if they will be here tonight

Wondering if children will he bring to the lightInherit the world, or inherit the night

Wondering if neighbors are thinking the same

All of the wild things tomorrow will tame

Talking of journeys that happen in vainAnd I know I'm not the only one

To ever spend my life sitting playing future gamesFuture games

Future games

Future games

Future gamesI know I'm not the only one

I know I'm not the only one

I know I'm not the only one

I know I'm not the only one
