

# Used to Love You (feat. Jhené Aiko)

## Yuna

I wonder if you think about me  
Now that you're out there on your own  
You made it seem so easy  
I wanna be just like you  
I wonder if your heart is healing  
You're going out so often now  
I see the boys are helping you out  
Are they just like you? No regrets, no looking back now  
Never left, you let me back down, no, no, no  
Used to love you, used to care  
But no more  
I used to love you, used to care  
But no more  
I used to love you, used to care  
But no more  
I'm better than before  
I can never understand why  
I'm depending on a guy  
To make me feel like I was special  
I am special when I'm mine  
Keep running on in circles  
I was such a slave for love  
Now that I know better, I know better of my worth  
I was young and I was foolish  
Giving up my heart so easy to someone who didn't love me like I do  
I was young and I was foolish  
All I needed was my spirit and someone will come and love me like I do  
No regrets, no looking back now  
Never left, you let me back down, no, no, no  
Used to love you, used to care  
But no more  
I used to love you, used to care  
But no more  
I used to love you, used to care  
But no more  
I'm better than before  
Used to love you  
I used to love you  
Used to love you  
Used to love you  
Used to love you, used to care  
But no more  
I used to love you, used to care  
But no more  
I used to love you, used to care

But no more  
I'm better than before
