

Love Letter

[Lisa Mitchell](#)

I'd like a flat white
A day of pale skies and a real kiss
Inside an old house
By the seaside you can take off my blouse But take it from me
I'm disorderly and you'd be off better
Writing someone else your love letter
'Cause I'm always on the road And of course I wanna know you better
But you know the way it goes
Well, a telegram's no substitute
When it comes to living proof Oh, go on and write somebody else
Oh, somebody else, oh anybody your love letter So I need a flight home
There's no day to argue, no I need my pillow
Well, inside an old house
By the seaside you can take off my blouse But take it from me
I'm disorderly and you'd be off better
Writing someone else your love letter
'Cause I'm always on the road And of course I wanna know you better
But you know the way it goes
And a telegram's no substitute
When it comes to living proof Go on and write somebody else
Somebody else, somebody else a love letter Oh, living in that chest is a big, big heart
One that I've known from the very start
Living in that chest is a big, big heart
One that I've known from the very start Oh, living in that chest is a big, big heart
One that I've known from the very start
Oh, living in that chest is a big, big heart
One that I've known from the very start Go on, write somebody else your love letter
'Cause I'm always on the road
And of course, of course I wanna know you better
But you know the way it goes
