Ohgr

reach towards the thing
that will never end
ask another question
will it ever end?will this ever end?
will together end
once it starts again
will it ever end?face the resolution
how did we get here?
years and years of cushions
placed upon your ears.this will never end
this has got to sendone side prophesize inside job
but the outside looking how funny how far
one side anywhere sitting on a wicked chair
in style holy war holy 7 more
yippy mc more better hold your lips
or you'll lose your mortgagetaste the desperation
look into the tears
whispered waters poisoned
reflected back upon you
