White Flags

As Lions

Turn the lights out
Follow me to the edge now
Take your dreams and shut the world away
All you need is faithNo right time
To do or die, no difference
Step outside
Raise your voice and say
Sieze this day, the world is ours to takeWhite flags over the mountains
Lost out on good advice
Don't give up on what you know
It's worth the price
Can you ever forget that nothing stays the same
White flags over the mountains
They will fade away
As we look up
Are we that close?
Will you reach out
Or let it go?
This road is what you choose
One you win or loseLet it out
And set it free
And on this day, your history
Is plain for all to see
Make your mark, take your destinyWhite flags over the mountains
Lost out on good advice
Don't give up on what you know
It's worth the price
Can you ever forget that nothing stays the same
White flags over the mountains
They will fade away
I've exhausted my solutions, seen my patience turn to rage
The only thing to keep us strong is faithWhite flags over the mountains
Lost out on good advice
Don't give up on what you know
It's worth the price
Can you ever forget that nothing stays the same
White flags over the mountains
They will fade awayBecause the only thing to keep us strong
The only thing to keep us strong

Is faith
