

# Flights

## Jacobs Ladder

They search, they light this place  
A face of the fearless  
To wait the night, it's calm  
But you're starting to hear thisIt moves so fast, stops hearts  
But holding on faster  
Come back, like that  
And you know thatYou will find that I'm everywhere you go  
And I'm all the places you will not be  
You will find that I'm everywhere you go  
And I'm all the things that you wanna beIt leaves this light  
This sparkles broken inside you  
I swear it hides  
Its siren's moving its way throughThis race we hear  
The fall of the wind and the whispers  
The take so clear  
And you know thatYou will find that I'm everywhere you go  
And I'm all the places you will not be  
You will find that I'm everywhere you go  
And I'm all the things that you wanna beConstantly moving  
Your heart is just wasting away  
Endlessly waiting  
This life is just slipping awayYou will find that I'm everywhere you go  
And I'm all the places you will not be  
You will find that I'm everywhere you go  
And I'm all the things that you wanna beYou will find that I'm everywhere you go  
All the places you will not be  
You will find I'm everywhere you go  
And I'm all the things that you wanna be
