

# Burning In the Dark

EMM

White face  
White sheet  
Underground  
6 feet  
Bloody knuckles  
Bloody feet  
Well that won't  
Be me I'm gonna be my own champion,  
Be my own savior,  
Be my own best friend,  
Be my life saver,  
Be the one I run to,  
When there's no one to run to  
Be the one I carry,  
Coming to my rescue...I'll keep burning in the dark  
I'll keep burning in the dark  
I won't surrender my heart  
I'll keep burning in the dark Face down  
Concrete  
20 storys  
One leap  
21  
Incomplete  
Well that won't  
Be me,  
Oh no...I know maybe,  
It feels like your story is over  
But it's just the beginning  
Don't give up If you try to wield the flame you get burned  
I know cause I did it  
You shoulda known by now, you shoulda learned  
I can't be fitted  
Into a box  
I been unlocked  
I can't be stopped  
I wil burn down all this shit to the top  
I carried this burden on my back  
Through mountains and deserts and stood on the train tracks  
And took every bullet

And broke every arrow  
And stuck to my guns through the darkest of perils  
And never surrendered  
Never surrendered  
I'll never surrender
