Stiff Little Fingers

Punctuality's a waste of time
Now, nostalgia is past, it's prime
History's a thing of the past
Being first just cannot lastBeep beep, I'm an answering machine
I mean to say, I say what I mean
Beep beep, I've got very strong views
Plug in any loop tape you chooseMy one single fault is modesty
I'm changing my views consistently
Amnesia's a thing I try to forget
Who can't kick gambling? Want to bet?Beep beep, I'm an answering machine
I mean to say, I say what I mean
Beep beep, I've got very strong views
Plug in any loop tape you chooseThe case for racism is black and white
If you want world peace you've got to fight
Must do what you're told to be free
Think what you like if you agree with meBeep beep, I'm an answering machine
I mean to say, I say what I mean
Beep beep, I've got very strong views
Plug in any loop tape you chooseSpeak whenever you hear this tone
Speak whenever you hear this tone
Speak whenever you hear this tone
