

Double Cross

Skinny Puppy

Drug addicition alcholism hatism beatialitiy mutilation murder vampirism necrophilia canobalism

Not to mention a gamet of sexual goodies...It is true then!

You have a younger man

This, may well be the last one

This, justice.. I don't know

It's fine with you

This young man, hard not to see through

Those eyes are truly prestegous

Come on women

These lies and batrayal

It is I, i had to kill

I took a sword "These are her words"

First I cut his face

That I can believe

Then, i cut his hand

Then....."Argument" "Don't look soo traggic old boy

You must learn to accept the secrets

It's a lack of control

They can't intend to adhear you

Get you're head in the papers all over again

In other words that don't mean shit

Double Cross

You all saw what happened

I had it in my hand

Look at him, that greatest loss here

Alright.. "Whispering" Well you'll never get him

Don't touch him

Don't you ever ever touch him like that again....
