Further Than We Know

The Trophy Fire

standing in a bedroom with champagne and cigarettes talking resolutions, taking sips and placing bets on who would come up short and whod come out on top now i see that both are really closer than we thought sometimes weve traveled further than we know
jonny played the bottle and i would sing out loud spinning fast and falling finding residence in the ground this will have its ending no matter how hard we resist this will have its ending no matter how hard we insist sometimes weve traveled high to see the what lay below sometimes weve traveled further than we know
