

Be My Baby

Erasure

Ooh, there could be love in your eyes
I could be loving you deep, my baby
Ooh, there could be love in your soul
I wanna feel the emotion Ooh, there could be love in your heart
I wanna feel it so deep down, baby
Ooh, I could love you so bad
I wanna give you devotion Oh, what's the matter with me now, baby?
Feelings are mixed up inside
Come on along and be mine only, child You better be careful or you might just get
What you are looking for
Now I'm in chains
Not exactly what I'm looking for Ooh, I'm putting magic aside
I love the look in your eyes now, baby
Ooh, it tells me you're mine
I wanna dive in your ocean Oh, what's the matter with me now, baby?
Feelings are mixed up inside
Come on along and be mine only, child You better be careful or you might just get
What you are looking for
Now I'm in chains
Not exactly what I'm looking for You better be careful or you might just get
What you are looking for
Now I'm in chains
Not exactly what I'm looking for Better be careful or you might just get
What you are looking for
Now I'm in chains
Not exactly what I'm looking for
