

# Amethyst

## Fightstar

She smokes like an amethyst  
Moving her way through my skin  
She moves me'Cause East is the way I go  
But nobody seems to notice  
How I feelKeep all the lights off  
And I'll try to kill our past time  
Just to find your heartPlease don't ignore me  
Or I'll just fall asleep  
And wake up when you're goneThis body only needs  
To learn to feel the problem  
DisappearI froze with those plastic eyes  
Cutting lose from upon  
This disguiseKeep all the lights off  
And I'll try to kill our past time  
Just to find your heartPlease don't ignore me  
Or I'll just fall asleep  
And wake up when you're goneShe smokes like an amethyst  
She's moving her way through my skin
