Team Theme

Bis

Let's go, Bis goWe use the freedom from the sonic pollution
To operate the sounds, hail our revolution
Just 'cos we come ablaze and you can't keep up
Won't sink to your level 'cos we've had enoughWe want the static, the disco
Yeah from our radio-oIf you hate us, we don't care
There's teen-c kids everywhere
We want you, do you dare
Life for live, are you scared?
If you hate us, we don't careThere's teen-c kids everywhere
We are gonna hit you where it hurts
Let's go, Bis goWe're at the party and we're ready to disco
Need inspiration, there's no style, oh no
More plastic people and they're coming at you
Better make an exit 'cos we're coming through
