

You Naked (Crackboy Remix)

Jamie Lidell

You naked (x3)Feel it in your veins

When I met you the sound

in the room fell mute (whoa-ho-oh)

Pretty little things you say and do

They make a man go mad(Pre-Chorus)

I let her take control

I let evil take control

I let her take control

And the evening's turning physicalStay today

Stay tonight

Stay 'til our bodies burn through the cold, baby

Stay today

Stay tonightI just wanna get underneath it all(Chorus x2):

You're making me crazy

With the things that you do, you do, do, do to me tonightYou're making me crazyFeel a little sick

When I met you and I smelled your perfume

I knew it was trouble

Pretty little thing

You make a man give up on what he knew(Pre-Chorus)(Chorus x4)You're making me crazyI just wanna get underneath it all

to see you „,You naked (x3)(Chorus x4)You're making me crazy
