

Lost In a Scene

The Flaws

Am i used to you
try finding new ways around the town
i made the suit that lifts you up when your feeling down

are we slaves to this
still hiding our face behind it
we dont have enough friends i know
to help us out of this

cause when you said
lately i dont feel like
we are lost within a scene
you turnaround

Making inroads in
relationships calls a nightingale
it dont make sense to crumble
under everything you demand

cause when you said
lately i dont feel like
we are lost within a scene
you turnaround

cause when you said
lately i dont feel like
we are lost within a scene
you turnaround

cause we're not getting over
overwhelmed with doubt
i shut it out
i shut it out
