

Up (OST Step Up 3D)

Jesse McCartney

Make that body go boom boom cat
Pop that back
Bodies go
You've never seen a show quite like this
Great like this, let's go, let's go She movin' like this, like that
Move up, move back, eh
Drop it low
Man you should see how she put it on me
She clapped that ass like a pro
She wantin' it, she grindin' it
Oh I like the way she handle it
Oh I like the way she shakin' it, she make your boy get up It's more that'll move you
It's more than a beat to dance to
Let the music feel you, oh Up and away, up up and away better move out the way
Girl, here she comes
You ain't never seen nobody get hot like
What I'm about to show ya gonna be a highlight
Up and away, up up and away better move out the way
Girl, here she comes
Revive me
Everybody She make my booty go boom, boom cat
When she pop that back
Make my body explode
I ain't never seen it quite like this
She great like this
She's the shit and she knows
She wantin' it, she grindin' it
Oh I like the way she handle it
Oh I like the way she shakin' it, she make your boy get up It's more that'll move you
It's more than a beat to dance to
Let the music feel you, oh
Up and away, up up and away better move out the way
Girl, here she comes
You ain't never seen nobody get hot like
What I'm about to show ya gonna be a highlight
Up and away, up up and away better move out the way
Girl, here she comes
Revive me
Everybody I'll tell ya one time so listen real close

I'm the best of the best, don't even have to boast
Coast to coast
They know who I be
No one under me
And nobody steps up to me
Don't wanna start somethin'
Then there'll be nothin'
You never heard of me
I'ma school you somethin'
Ya ain't got game
Don't step to the floor
Just pack ya bags and hit the door
Up and away, up up and away better move out the way
Girl, here she comes
You ain't never seen nobody get hot like
What I'm about to show ya gonna be a highlight
Up and away, up up and away better move out the way
Girl, here she comes
Revive me
Everybody
Up and away, up up and away better move out the way
Girl, here she comes
You ain't never seen nobody get hot like
What I'm about to show ya gonna be a highlight
Up and away, up up and away better move out the way
Girl, here she comes
Everybody
Everybody
