

# Came Up

## Phora

Like what the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up Like what the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up (Way up, should've seen how a young nigga came up)  
So what the fuck am I afraid of  
Dirty ass Chuck's how I came up  
Me I never changed for the money but it's funny how when a nigga get dollars man they change up  
(My niggas way up, yeah we stay up)  
YT we steady fucking the game up So if they ain't fucking with these frontin' ass rappers no more, well I guess you can blame us!  
So really what should I fear I been through it all in a couple of years  
I don't need these motherfuckers up in my ear Cause everybody always ask me how the fuck am I here but  
Really I ain't surprised I been killing shit dawg  
I been on my grind  
Everybody hating talking bout me on Twitter when they come around I see the bitch in their eyes  
What the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up Like what the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up (Way up, should've seen how a young nigga came up)  
So what the fuck am I afraid of  
Dirty ass Chuck's how I came up  
Me I never changed for the money but it's funny how when a nigga get dollars man they change up  
(My niggas way up, yeah we stay up)  
YT we steady fucking the game up To everybody saying we would never make it  
Fuck'em all this shit for my day ones  
See I ain't fucking with y'all  
Just last year I wasn't nothing to y'all  
I was going through the worst, got shot in the head Motherfuckers couldn't even pick up when I called, shit  
But now you need a favor that's funny I wouldn't work with you even if you had the money  
You was in the club poppin' bottles trynna flex, got home Eating steak while we all stayed hungry  
Dreamin' of things we couldn't afford

They was in a foreign, I was pushing a Ford  
Didn't have a dollar shit I came up poor  
And they was calling cops on me I was trynna record  
But I still made it possible  
So ask yourself what's stopping you  
Stay true to yourself, never let nobody talk down when they talk to you  
What the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up Like what the fuck am I afraid of  
Should've seen how a young nigga came up  
So what the fuck am I afraid of  
Aye, straight from the bottom yeah I had to make a way up (Way up, should've seen how a young nigga came  
up)
