

Space

Art of Dying

Too tight, so close, suffocating
Tonight, you know, I'm barely breathing
Why could you let it go? It's a fine line
And I'm running out of time
I've got a straight jacket on
I've got to get...Space between us
Space between us
It's those spaces between us
It rips us apart
And keeps us together
You speak, I talk, it doesn't matter
You left, I'm gone, but not together
I can't let it go It's a fine line
And I'm running out of time
I've got a straight jacket on
I've got to get...Space between us
Space between us
It's those spaces between us
It rips us apart
And keeps us together It's a fine line
And I'm running out of time
I've got a straight jacket on
I've got to get, I've got to get
Space between us
Space between us
It's those spaces between us
It rips us apart
And keeps us together
It rips us apart
And keeps us together
It rips us apart
And keeps us together Space, space
