

Blue Hawaiian

Brighten

Welcome to my friends
This house is a home
And a home's where I belong
Where the feelings are warm
And the foundations are strong
If my soul has a shape
Well, then it is an ellipse
And this slap is a gift 'Cause your cheeks have lost their luster
You know your cheeks have lost their luster
You know your cheeks have lost their luster
You know your cheeks have lost their luster
Luster, luster, luster
Take it back Send return out of time
Tape machine needs to be aligned Aloha means goodbye
And also hello
It's in how you inflect
Put the bark in the dog
And you've got a guardian
When the capitals S
It is followed by a T
And it's probably me And the tones are grouped in clusters
You know the tones are grouped in clusters
Well the tones are grouped in clusters
You know the tones are grouped in clusters
Clusters, clusters, clusters
Take it back Kiss me into the past
Lately never gonna last
Yea
