Once

Ronnie Dunn

You were a wait so worth
The price of all the hurt inside me
Just when the sun was setting on my heart

You found a way to drown
The loneliness and doubt inside me
Just when my soul was getting used to the dark
Here you are

Of all the roads that wind and curve
The shoots you down, some twists and turns
Somehow we found our way

Let's hold each other, fight for this
Life, you know it's all we get
Baby, you only find this kind of love
Once

You're like a song
That finds its way inside, I can't quit singing
A one of a kind timeless melody

The past just doesn't matter anymore
So let's just leave it
Forever with you is all I ever need
I can't believe

Of all the roads that wind and curve
The shoots you downs, the twists and turns
Somehow we found our way

So let's hold each other, fight for this
Life, you know it's all we get
Baby, you only find this kind of love
Once

Of all the roads that wind and curve
The shoots you downs, the twists and turns
Somehow we found our way

Let's hold each other, fight for this
Life, you know it's all we get
Baby, you only find this kind of love
This kind of love once
