

Days Like These

Asia

The sun was shinin'
The sky was cryin'
It just tore apart
And down came the rainAn' I was soakin'
Yea I was freezing
But I was feeling
No kind of painCome a fireball
I held it in my hand
You see before you
A man who's known greatnessI had a vision
A revelation
I took a look inside of me
And I am a sensationDays like these
I feel like I can change the world
Days like these
I feel like I can change the worldIt's either easy
Or it's impossible
But if you ain't got it
You ain't never gonna get itOnce you find it
You gotta grab it
You gotta reach down your own throat
And yank it to the surfaceMay be brutal
May be glory
But whatever else it is
It's my storyAnd I believe it
Yea, I can see it
I sing it out, shout it out
Give me death or gloryDays like these
I feel like I can change the world
Days like these
I feel like I can change the worldDays like these, days like these
You know I think I'll move a mountain or two
Days like these, days like these
Anything you want you know I'll get it for you, ooo ooo ooh
Ohh ohh ohhDays like these
I feel like I can change the worldThe sun was shinin'
I was cryin'
I saw a thousand people
Singin' in the rainAnd I was thinkin'

About the Indians
And how they sing true wisdom
Only comes through pain Come a rumblin'
Humbly feelin'
Like things will never
Ever be the same What doesn't kill your
Only makes you stronger
And today I'm strong enough
And anyway, I love the rain Days like these
I feel like I can change the world
Days like these
I feel like I can change the world
(Ooh ooh what a day like these) Days like these
I feel like I can change the world
Days like these
I feel like I can change the world
(Ohh change the world) Days like these
I feel like I can change the world
Days like these
I feel like I can change the world
(I feel like I can change the world) Days like these
I feel like I can change the world
