Suzy

Kelly Jones

I used to watch you sing
Underneath the sun
Until I passed out
You came to rescue me
So I came to believe
You were my remedyI loved to watch you swim
We'd drink at night in the water
Moonlight on our skin
We never said goodbye
Do you think we should have
Or is it better this way?So bye, bye, little Suzy
Never wanted to use you
I had to get on home
So bye, bye, little Suzy
Never wanted to lose you
Or leave you there all aloneWe float on down the beach
Underneath the stars
And dance in the sand
I left you sleeping that night
I didn't wanna wake you
So we'd always be rightI loved to watch you swim
We'd drink at night in the water
Moonlight on our skin
We never said goodbye
Do you think we could have
Or is it better this way?So bye, bye, little Suzy
Don't think that I used you
I had to get on home
So bye, bye, little Suzy
Never wanted to lose you
And leave you there aloneBye, bye, bye
Bye, bye, bye
Bye, bye, bye
Bye, bye, goodbye
