

# Think of You

Christina Grimmie

[Verse 1]

It's been awhile, I should be moved on  
'Cause I shouldn't be writing you this song  
Haven't crossed my mind for so long  
But tonight you're the movie, I want to leave on  
Not enough rooms in this house  
To hold all the treasures we found  
Evidence all surround  
Your fingerprints all over who I am now [Chorus]

You,

We wished only stars they were ours they remind me of you  
I'm still letting you go I just want you to know  
That I think of you, think of you  
Think of you, think of you [Verse 2]

The space in the back of my mind  
I meet you there to reminisce from time to time  
That you were the light, the blue in my skies  
I saw the shades of myself in your eyes [Chorus]

You,

We wished only stars they were ours they remind me of you  
I'm still letting you go I just want you to know  
That I think of you, think of you  
I think of you, think of you  
I think of you, oh

I think of you, I think of you  
Think of you, think of you  
Think of you, think of... [Chorus]

You,

We wished only stars they were ours they remind me of you  
I'm still letting you go I want you to know, yeah  
We wished only stars they were ours they remind me of you, yeah  
I'm still letting you go I want you to know  
That I think of you, think of you  
I think of you, I think of you
